

STANDARD-TYPES

Storelite® Compound

Item no.	Type	Polymer	Pigment	Afterglow Colour	Body Colour
656.602.008	ABS-01 H/HS GL natural	MABS	25%	yellowish-green	natural
656.602.003	PA-03 H/HS GL natural	PA 6	25%	yellowish-green	natural
656.602.006	PC-03.1 H/HS GL natural	PC	25%	yellowish-green	natural
656.602.005	PMMA-01 H/HS GL natural	PMMA	25%	yellowish-green	natural
656.602	PMMA-01 M/HS GL natural	PMMA	10%	yellowish-green	natural
656.602.007	PP-03.2 H/HS GL natural	PP random	25%	yellowish-green	natural

Storelite® Masterbatch

Item no.	Type	Polymer	Pigment	Afterglow Colour	Body Colour
655.602.005	PC-03.1 50 HS GL natural	PC	50%	yellowish-green	natural
655.602.001	EVA-01 HS GL natural	EVA	70%	yellowish-green	natural
655.602.007	TPE-04.78HS GL natural	SEBS	70%	yellowish-green	natural
655.502.001	EVA-01 TOP GL natural	EVA	70%	yellowish-green	natural
655.612.001	EVA-01 HS BL natural	EVA	70%	blue	natural

For injection moulding or extrusion we recommend using material with a maximal pigment content of 25%.

These items are standard types. Normally we supply our customers with compound or masterbatch according to their specifications regarding the base polymer as well as the pigment type and content and colouring, if any. In this case the minimum quantity is 20 kg per lot.
